

LANDBELL GROUP

LANDBELL GROUP is an international supplier of service and consulting solutions for environmental and chemical compliance. We have 25,000 customers in over 30 countries and are present on four continents. We employ over 250 people worldwide. It is our aim to reduce the complexity of extended producer responsibility (EPR) legislation, as well as product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions – in terms of service quality, compliance and cost.

At LANDBELL GROUP, we prepare our clients for the uncertainties of the future. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future.

We do this by:

SIMPLIFYING – our expertise and experience strip away complexity

BEING HOLISTIC – our strong brands and comprehensive services combine to build integrated solutions

THINKING AHEAD – our approach is innovative and entrepreneurial

LANDBELL GROUP is comprised of six international brands:

European Recycling Platform (ERP) was founded in 2004 by four multinational producers. The company provides compliance services and unrivalled expertise in the collection and treatment of waste electrical and electronic equipment (WEEE), as well as waste batteries and packaging. ERP offers services all across the European Union, in the Middle East and Latin America.

H2 Compliance was founded in 2006 with a focus on the European Union. The company delivers fully integrated and customised consulting, services and software solutions for regulatory compliance within the chemical and environmental sectors. These regulations include Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), Classification, Labelling and Packaging (CLP), Biocidal Products Directive (BPD), Waste of Electrical and Electronic Equipment (WEEE), Batteries and Accumulators Directive, Packaging Waste Directive and Restriction of Hazardous Substances (RoHS). In addition to regulatory services, H2 Compliance also specialises in product take-back solutions, quality, audit and compliance scheme engineering. Today the company operates globally.

Prodigientia was founded in 2003. The company provides software solutions that offer a secure, more effective way of delivering compliance activities and waste management operations. Prodigientia's portfolio includes solutions for compliance schemes, manufacturers, national registries and waste operators. The company is active in over 15 countries across Europe, as well as North and South America.

Landbell GmbH started in 1995 and provides compliance solutions for the waste packaging regulations in Germany. Landbell's portfolio includes compliance, registration and reporting services, as well as environmental consulting for producers and retailers. Landbell GmbH operates in Germany.

DS Entsorgungs- und Dienstleistungs-GmbH was founded in 2014, and offers a full range of operational recycling, waste disposal and logistic services. The company manages collection, transport and sorting processes and offers customised and industry-specific solutions to companies in Germany.

green::ALLEY

Green Alley was founded in 2013 as a social entrepreneur and strategic investor for start-ups driving "green economy" solutions. It is the only European incubator supporting new companies working within the circular economy. It hosts the annual Green Alley Award to promote innovative start-ups.
